

Parents Know the Drug Threat

The Child You Save May Be Your Own

A MESSAGE FROM
JACK BRUNSON, MAYOR
City of Elba, Alabama

Most of us like to think that the drug threat is a problem in some far off big city, but the fact is that we have a drug threat in our City and County today. For this reason I obtained a series of articles for publication in an effort to communicate with as many parents as possible. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

Today's Subject: Heroin — Another Depressant

While discussing Heroin it is immediately alarming to parents to learn that most city, county and state arrests for Heroin, across the country, have increased from 100% to 250% in the past two years.

What is Heroin? Heroin is diacetylmorphine, an alkaloid derived from morphine; it does not occur in opium. It is most usually a white, off-white or brown crystalline powder. It has for many years been first choice among addicts of opiates. In slang terms it is referred to as "H", "Big H", "Snack", "Junk", "Dope". It is an injected, potent, highly addictive narcotic. Its possession is illegal.

Heroin has a generally sedative and analgesic effect. The first reaction to introducing it into the system is unpleasant to most people, but a calming effect follows and, depending on how much is taken at a time, may very well progress to coma and death from respiratory failure.

A Heroin user will have "needle tracks", small needle marks on his body, most often on the arms over a vein. It can also be given in the legs. Abscesses (boils) often become apparent at the site of injections. Dirty needle diseases are common among users, such as hepatitis and nationally approved epidemic levels.

Most abusers, using Heroin, actually seem to have a dream-like disposition, but when in need of a "fix", (another dose), they become capable of aggressive and even violent behavior. Some of the users, using others, are pugnacious pupils and a job complexion. The body builds a tolerance for the drug and the user needs an increased dose regularly in order to achieve the same desired effect. Withdrawal pains occur when drug is not available. The psychological dependence on the drug makes the user THINK he needs the drug to function and he is extremely uncomfortable without it, once he "hooks". Ex-addicts often return to the habit and the history of complete recovery is disheartening to say the least.

Infection of the user's blood stream, lungs and heart, can often result from Heroin injections. The lungs can have blood clots. When this type of infection occurs it is usually caused by bacteria that can be very resistant to treatment and therefore the death rate is very high.

Survival for Heroin is the illegal "street market" and the cost is usually \$5 to \$5. per capsule. Physical dependence can cost from \$20.00 to \$30.00 per day.

What could possibly be appealing about the use of such a "hypnotic drug"? To the user, the great appeal is that these drugs induce a sense of good feeling, depress or overcome emotional pain for a while and minimize feelings of fear, anxiety and tension. But, when it is so unattractive, why do people use it? It can be a way of life, consuming complete attention, energy and income. It is the duty of everyone, with any contact or influence with young people to educate them whenever possible about the FACTS surrounding drug misuse.

Next week our subject will be "LSD".

WHERE WILL THESE SCHOOL BUSES GO THIS YEAR? Commissioners Offer \$30,000 For Buses

The limited time before school starts and the great public interest created last week by the actions of the Coffee County School Board have combined to spur several groups into action.

ELBA MERCHANTS
PLAN BIG AUGUST
PROMOTION

The newly formed Elba Merchants Association is flexing its muscles this month as the group launches a city wide Back-to-School promotion. A special Youth Appreciation Day is scheduled this Saturday in conjunction with the sale.

The group involved with this promotion is urging all merchants to take part in these activities and to join in planning future Elba promotions. They feel that if others see the results of team work, the organization will prosper and so will everyone else including the 16 city sales tax that is used for the hospital bond retirement, schools and other capital improvement projects.

Mirex Is OK For
Fire Ant Control

In 1961, Mirex was placed on the recommended list of materials used to control fire ants instead of Heptachlor and has been used on about 50 million acres in the U. S. since 1962, says Talmadge Balch, Extension pesticide education specialist. This substitution was made because Heptachlor caused damage to some wildlife.

The main advantage of Mirex—a bait impregnated into corn cob grit—is that fire ants remove it from above ground into the ant mound within a few hours. Mirex toxicity to mammals is much less than other control measures for the imported fire ants, Balch adds. So, Mirex is still registered by the federal government for fire ant control, and it's still the choice chemical for use to control fire ants in pasture and hay crop areas.

For the actions, they contend the operation of school buses cost them \$39,000 more annually than the state pays for transportation of students.

There were several meetings throughout the past week and on Monday of this week the Coffee County Commissioners were asked to grant the schools the use of the coming year with a promise that other arrangements could be made before next year.

The commission took no action on this Monday but did meet on Tuesday afternoon and approved a conditional grant of \$30,000 providing the three school systems could produce the additional money needed to keep the buses operating just as they have done in the past. The resolution was presented by Commissioner Flournoy Whitman and read in part: "Resolved by the Coffee County Board of Education the sum of \$30,000 in installments to be used in the school year 1971-72 for the transportation of students to all schools in all school systems of the County, provided the Coffee County, Elba and Enterprise Boards of Education make arrangements for any additional funds needed to assure that students will be transported during all the coming school year by the County school buses as has been done in prior school years."

At press time there had been no official announcement by any of the school systems involved but telephone calls to several

board members who preferred to remain unnamed indicate that the problem can be solved following this action by the Commission.

Incentives
Urged For
Pollution Control

A "pollution tax" won't help control pollution, the National Association of Manufacturers told the Joint Economic Committee of Congress.

Testifying before a subcommittee hearing, H. C. Lumb, the NAM witness, said the principal obstacle to even greater pollution control expenditures by industry is the generation of enough cash to pay for these nonproductive facilities. "Taking money away from industrial companies in the name of a pollution would harm the cause of pollution control," he said.

As a constructive alternative, Mr. Lumb advocated tax incentives for industry for costs of installing pollution control facilities. "The incentives should take the form of accelerated amortization up to and including immediate write-off of the facilities, at the option of the taxpayer; and tax credits to companies which expend private capital for such facilities," he said.

Spending Plans

The NAM witness said that industry plans to spend \$926 million this year on pollution control research and development. "It is impossible to understand how industry could spend even more if it had money siphoned away by an additional tax on its operations," he said.

Mr. Lumb, who is Vice President, Corporate Relations and Public Affairs, Republic Steel Corp., said industry is not interested in "a license to pollute."

"This year U.S. industry is spending \$3.6 billion on new pollution control facilities in addition to the hundreds of millions of dollars it spends every year operating billions of dollars worth of pollution control equipment already in place," he said.

Mr. Lumb said that proponents of a pollution tax appear to favor it on the basis of "their disappointment with the results of the regulatory approach" in controlling pollution. "What they overlook is that 'pollution' resulting from manufacturing operations is only one segment of the total pollution problem," he said. "Government figures indicate that manufacturing activities contribute less than 20 percent of total air pollution. Industrial water pollution is but one fraction of a total which includes pollution from municipal, recreational, agricultural, and natural sources.

Outstanding Performance ratings were awarded to 35 civilian employees at Ft. Rucker in April, May and June as part of the post's Incentive Awards Program.

The Combat Development Command Aviation Agency recognized six employees. Cited from Elba was Mrs. Katreen S. Vaughan.

Recognized for their work with the Army Aviation Test Board were Mrs. Merle W. Wise, Elba and James P. Spearman, New Brockton.

Receiving an Outstanding Performance Award during the 4th quarter of Fiscal year 1971 was Mrs. Ruth J. Reynolds of Kinross, an employee of the Office for Doctrine Development, Literature and Plans.

During April, May and June this year, the Incentive Awards program of the Army Aviation Center presented awards to 88 civilian employees.

Twenty-two received Outstanding Performance ratings with a Quality Increase (pay increase). Among those receiving awards was Mrs. Linda T. Smith, Elba, Directorate of Industrial Operations.

Employees earning outstanding performance ratings with sustained superior performance awards included Claxton Hornsby, Third US Army Training

Coffee Farm Bureau To Meet Today

The Coffee County Farm Bureau will hold its annual meeting Thursday, August 12 at the Enterprise High School auditorium. The meeting will begin at 3 p.m. and will feature Dr. Max Rafferty of Troy State University as principal speaker.

Current highlights of the meeting will include the selection of a Coffee County Farm Bureau queen who will compete at the state meeting in Mobile in Mid-November; the election of officer and directors for the coming year; and a barbecue supper following the business session. Plans will be discussed for representation at the state meeting and for any resolutions to be presented at that time. Door prizes will be awarded.

Current officer of the bureau are Phillip Martin, Enterprise, president; William H. Griffin, Enterprise, vice president; and Roy Sims, Enterprise, secretary.

Contestants in the Farm Bureau Queen contest will meet for a luncheon at Bayley's Restaurant prior to the meeting. They are Pamela Asher, Elba; Linda Bragg, Enterprise; Psyche Patterson, Kinross; Cecilia Codwin, New Brockton; Linda Jean Patterson, Enterprise; Deborah Kay Bess, Kinross; Zella Jean Bragg, Jack; Sue Crump, Enterprise; and Cecil Stephens, Enterprise.

Paul Wise, Kinross, is chairman of the Farm Bureau young people's committee.

All is in readiness for the big annual membership meeting of Covington Electric Cooperative, which will be held at the Andalusia Municipal Stadium tonight (Thursday).

Registration will open at 5:30 p.m., with free entertainment by the Thrasher Brothers Quartet, of Birmingham, starting at 6:30. The business session will follow.

The Elba Clipper is celebrating its Birthday this week. The Clipper is now 44 years old, having served the people of this area continuously since the late 1800's.

MUSICIANS ARE
NEEDED SATURDAY

Any individual or group of musicians that would like to participate in the Youth Appreciation Day activities this Saturday are urged to call 897-2216 or 897-5568.

Fishing Class Set By Mann

ENTERPRISE STATE JUNIOR COLLEGE coed, Cathy Ann Bowers of Elba, is dressed for the occasion—the Fishing short course and Breeding Tropical Fish in Home Aquariums course to be offered at Enterprise State fall quarter. Interested aquarists and fishermen may register now for these courses scheduled to begin September 14, 1971.

One of the nation's top bass and trout fishermen, Tom Mann of Eufaula, will demonstrate and lecture on bass and speckled trout fishing at Enterprise State Junior College during a short course scheduled this fall quarter. Entitled "Wiregrass Sportsman—Volume I—Fishing."

Mann, a former Coffee County conservation officer, operates a bait shop in Eufaula where he designs and produces fishing lures. He is nationally known and recently finished first in the Lake Seminole Lunker Bass Tournament with a three day catch of 62 pounds, 14 ounces.

The fishing short course is scheduled to begin September 14, 1971, with Tom Mann as the opening night feature. Classes will meet on Tuesday from 7:30 p.m. to 9:30 p.m., Tuition is \$4 and those interested are urged to register immediately.

The King of Enterprise brim fishermen, Quentor Miller, is scheduled to talk to the class and demonstrate "Brim Fishing in Local Waters." Joe Talmadge, Dean of Instruction at Enterprise State, said that an attempt is being made to enlist additional top fishermen to teach segments of the course. "We will have either Ray Scott, president of Bass Anglers' Sportsman Society (BASS) or Rollin Martin, a specialist in fishing with Plastic Worms," Merrill Nail, State Department of Conservation Officer, will represent the group on Pollution in Alabama Waters, Freshwater Fish in the Southeastern United States, Ethics While Fishing, and Laws Governing Fishing and Major B.G. Smith of the Water Safety Division of the State Department of Conservation.

Featured will be an address by John A. Garrett, Brokers Home Administration (FHA) Director for Alabama, best reports by Covington Electric of officers: Consideration of a proposed by-laws amendment relating to future financing, and election of two members to the Board.

Nominees named by the Nominating Committees to be voted upon for possible election to the Board of Trustees are Messrs. J. L. Bryant and O. D. (Derrell) Hudson, both of District III, and Messrs. Charles A. Mallory, Kinross Route 1 and T. R. Northey, Opp Route 3, for District IV. Rueben Goodson, Opp Route 3, was also nominated by petition from District III.

Bryant and Mallory are incumbent trustees for District III and IV, respectively.

Following the business session, a 23" color television set and some 30 other electrical appliances will be awarded as attendance prizes, with each Co-op member registering receiving a free light bulb.

In addition, a special cash drawing will be conducted from among C.E.C. ballots which were returned to the Cooperative by Covington Electric members by August 5, for cash prizes of \$150.00, \$100.00 and \$50.00. If the winners of this special drawing are present at the annual meeting they will receive an extra \$100.

Concession stands will be operated by the Covington County Shrine Club, Covington Electric furnishes electric service to over 12,200 consumers in Covington, Coffee, Crenshaw and Geneva counties.

Joe Talmadge, Dean of Instruction at Enterprise State said that announcements will be made as additional personnel are enlisted to teach segments of the course. Tuition for the course is \$10 and Talmadge urged those interested to "enroll now and make suggestions as to other professionals we might get to teach parts of the course."

Tropical fish enthusiasts will have an opportunity to hear professionals speak on Aquarist Set-Up and Breeding Tropical Fish in Home Aquariums. Fisheries Section of the Alabama Department of Conservation will present three lectures on Aquarium Set-Up and Care; Breeding Bubble-Nest Builders; and Diseases of Tropical Fish. Dot and Ray Ballenger, Aquaria owners of Ozark, are scheduled to address the class. Dot will speak on Interior Decorating of Home Aquariums with rocks, driftwood, and plants. Ray will talk of equipment needed and use in home aquariums.

Other subjects that will be covered in the course which begins Thursday night, September 23, 1971, from 7 p.m. to 9 p.m., are: Raising egg scatterers; raising live bearers; growing plants in aquariums; history of quarries and tropical fish; producing your own tropical fish food; and mistakes often made by aquarists.

Joe Talmadge, Dean of Instruction at Enterprise State said that announcements will be made as additional personnel are enlisted to teach segments of the course. Tuition for the course is \$10 and Talmadge urged those interested to "enroll now and make suggestions as to other professionals we might get to teach parts of the course."

Graduation Candidates Announced At TSU

Registrar Jeff McGlain of Troy State University has announced the names of 327 Alabama students as candidates for summer graduation exercises on August 13.

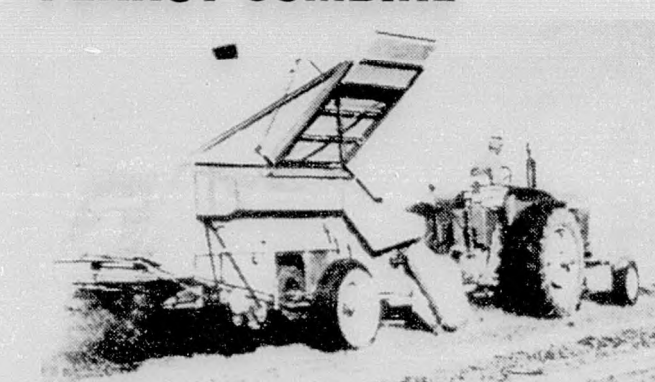

Of the total number, 102 will receive graduate degrees, while 225 will be granted undergraduate degrees.

There are 37 students from Coffee County included in the list. They are: Undergraduate Degrees: Sherlon Ann Boothe, Roger Kenneth Bowden, Ronald James Bowden, Becky Brock Brand, Howard Edward Brown, Mary Smith Brown, Beulah Armstrong Bryan, Sylvia Ann Owens Burch, William Davis Burns, Billy Cardwell, Douglas Lamar Carmichael, Joann Pittman Cawley, James L. Chalket, Karen Wesley Cotton, Lomberto Diaz-Perez, Renee Nickell Gaudre, Glen Roberts Hiner, Jackie Leon Hudson, Johnny Braxton Knight, Mack Franklin Lott, Lawanna Hocut McNair, Harriette Chamber Peacock, Charles Lewis Pearce, Ronald Wayne Rushing, Troy Delmo Sims, Gladys Louise Smith, Lanny Standridge, Ronald J. Stevens, Gayle Farmer Stevens, Ronnie K. Young, Graduate Degrees: Lois Kemer Campbell, Roger Barton Crampton, Earle Dale Price, Alwyn Schoeffter, Jr., Ethel Dolores Simmons, Walter Perry Vickers, Gerald Bernard Warren, Jr.

Fort Rucker To Present Sky-Dive

The Ft. Rucker Parachute Club will present a sky-diving exhibition during the barbecue dinner August 19, at Lake Tholozan sponsored by the Bogardus S. Gatins Chapter of the Association of the United States Army.

The family function is open to all. The popular demonstration team has staged jumps throughout the Wiregrass area in the past.

Events get underway at 4:30 p.m. with tickets available from AUSA members or by calling Ft. Rucker 255-4800. Admission is \$3.50 for adults, 75¢ for children ages 6-12 and free for children under six.

Private Akridge Completes Basic Training

Army Private Elbert W. Akridge, 19, son of Mr. and Mrs. R. A. Akridge, Route 4, Elba, Ala., recently completed eight weeks of basic training at the U. S. Army training center, Armor, Ft. Knox, Kentucky.

He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military history and traditions.

The soldier's wife, Judy, lives at 100 Sussex Ave., Troy.

Revival Services Scheduled In New Brockton

Revival services will begin Sunday the 15th of August and continue through the 20th of August at 7:30 p.m., each evening at Old Tabernacle Methodist Church of New Brockton on the Rocky Head Road, Rev. Robert L. Wilson will be the guest speaker. The Rev. Ashbury F. Wolfe, Jr., extends a cordial invitation to everyone.

PERSONAL

Mrs. Price Ringo visited with Mr. and Mrs. Donald Hammond of Dothan. Mrs. Hammond is Mrs. Ringo's sister.

Cynthia Daniels Named To Dean's List

Cynthia Gay Daniels, the daughter of Mr. and Mrs. Dean Daniels of Elba, Alabama, made the Tuskegee Institute's Dean's List for the second semester. She is an advanced sophomore majoring in Social Studies with a minor in Spanish. She is also a cheerleader at Tuskegee Institute. Cynthia is a 1970 graduate of Elba High School.

Elba Native Chosen As Outstanding

The Nineteenth Century Club of Troy is one of the nation's clubs participating in the Outstanding Young Women of America program. The program, conceived by the leaders of the nation's major organizations, recognizes young women between the ages of 21 and 35 for their contributions to the betterment of their communities, professions and country. Mrs. Donald J. Gibson, a Coffee County native, has been nominated by the Nineteenth Century Club to appear in the seventh edition of Outstanding Young Women of America. Her name will also be entered in nomination for the outstanding Young Women of Alabama. Before her marriage, Mrs. Gibson was Carolyn Sue Hussey, daughter of Mr. and Mrs. Robert Hussey of Route One, Elba.

Mrs. Gibson attended

Elba Elementary School and graduated from Troy State University and the Alabama State University and the Alabama State University and the Alabama State University.

Mrs. Gibson is an Assistant to the Registrar at Troy State University. One of her main responsibilities is the handling and processing of all applications for Re-admissions to the University. Her husband travels to all T.S.U. chapters for Re-admissions to the University. She is a member of Alpha Kappa Alpha and Gamma Delta Sigma Sororities and serves as Social Secretary for the latter organization. She is a member of the Gamma Delta Sigma Sorority and has served as Secretary and Reporter for this club. She is president of the Dardane Junior Woman's League, the newest woman's organization of Greenville, Alabama.

Her hobbies and favorite pastimes are reading, cooking and attending football games, especially Troy State's. She and her husband travel to all T.S.U. chapters for Re-admissions to the University. Parents Know the Drug Threat

The Child You Save May Be Your Own

A MESSAGE FROM
JACK BRUNSON, MAYOR
City of Elba, Alabama

Most of us like to think that the drug threat is a problem in some far off big city, but the fact is that we have a drug threat in our City and County today. For this reason I obtained a series of articles for publication in an effort to communicate with as many parents as possible. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

Today's Subject: LSD — Controversial Hallucinogen

LSD is classified among the hallucinogens and is by far the most potent in this category. A dose the size of the point of a pin is sufficient to send the average person into a "tripping" state, all within their own minds and, of course, entirely imaginary.

LSD stands for Lysergic acid diethylamide and street terms include "acid", "trips", "cubes", "pearly gates", and "heavenly blue", "scramblers", "mind blowers" and "mind benders". LSD was synthesized, (made), in 1938 by a Dr. Albert Hoffmann in Switzerland. However, the true powers of LSD were not discovered until about 1943, and then by accident. Beginning early in the '60s LSD drew public attention by Dr. Timothy Leary and others who have read about since, and a sort of cult developed around it. "Hippies" soon found LSD a favorite. LSD and many other hallucinogens came to be known as "psychedelic" from the Greek meaning for the term mind-manifesting.

LSD is usually taken in liquid form, capsule, pill or dropped on a sugar cube and swallowed. Initially the result of taking this drug is disorganization and confusion of the central nervous system. It can cause brain action changes and effect the level of consciousness by causing hearing and sight hallucinations, (imaginary happenings — dream-like experiences). Color of the substance, whether liquid or solid is usually blue, but sometimes in tablet form it can be white.

Being under the influence of LSD is referred to as a "trip" and these periods usually last from 6 to 12 hours per dose, depending on the amount of the drug taken. The results of use, both immediate and long-range are extremely dangerous. Users will experience:

Very irrational and extremely unpredictable behavior
Sight and hearing hallucinations
A very confused mind resulting in bizarre behavior and great panic.

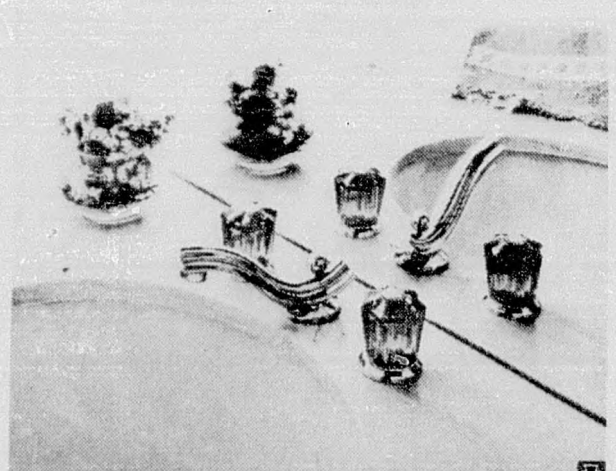

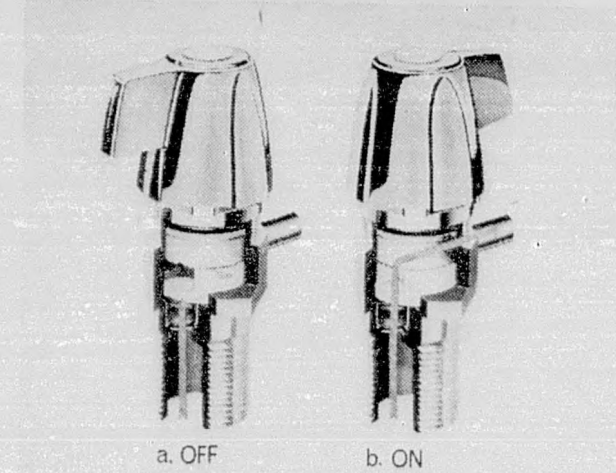

"Trips" on LSD closely resemble an actual period of insanity. Suicide or accidental deaths have occurred. Surprisingly a user of LSD can go into hallucinations without taking the drug again, and suffer all of the ill effects of the drug, for up to three years after the last dose was taken. There have been cases of extended "trips" from just a single dose where the user "freaks out", meaning his effects stay with him for long periods even though he has taken only one dose.

Physical harm from the drug usually comes as the result of the behavior it causes from the disorganization of the mind which it causes. Mental harm is continually studied. Many medical people believe LSD use damages brain tissue, causes gross emotional and personality changes, but they are still in the process of clinically proving it.

All indications point to severe disruption of the personality, temporary or permanent, variations depending on other individual factors involving tolerance. But, it is felt that once brain tissue is injured it remains injured, it will not regenerate! Recently, in the research being done on LSD, there are strong indications that it causes chromosome damage, thus causing potential damage to offspring of the user. So, not only does the user endanger his own life and future, but also that of his yet unborn children.

The usual source for LSD is the "street market", and it sells for about \$2.00 to \$5.00 per dose.

Only The Outside's The Same

Aggravation caused by dripping faucets that hike water bills has been ended for homeowners by a new faucet that looks like any other two handle faucet, but is trouble-free, maintenance-free and drip-free. Delta Faucet Company engineers have come up with a new valve unit that eliminates the most troublesome part of the faucet — the compression washer. They perfected the Delux rotary cylinder valve design that does away with metal, doesn't need compression or compression washers and has no stem threads to wear out, no washers to crush, tear or replace. They've used modern "space" materials, including Teflon to eliminate friction. Get details from your local plumber or plumbing contractor-supplier.

GRAND OPENING SCENES

Jernigan Chosen As Chief Of Bureau Of Aging

The new Chief of the Bureau on Aging for Florida is Oliver Jernigan of Tampa according to the Director Division of Family Service, Douglas Endsley.

Mr. Jernigan, 52, with a master of arts degree in Gerontology comes to this position June 15 from that of coordinator for Yvonne City Senior Center. As center coordinator, Jernigan supervised staff identifying the needs of the local senior citizens and in helping them to meet these needs.

In announcing the selection of Jernigan to head up Florida's Bureau on Aging, Endsley said, "After a long and intensive 10 months search, we have finally found a mature person with fresh ideas who shares our real concern and hopes for improving the lot of Florida's elderly."

During fiscal year 1970, the Bureau on Aging, a part of the Division of Family Services since July 1969, served through these projects over 30,000 senior citizens in the areas of Health, Education, Housing, Recreation Training, Information and Referral, Nutrition and Pre-Retirement Counseling.

After having his education at the University of Alabama by WWII, Jernigan went on to a successful U. S. Air Force career coming out in 1963 as a Command Pilot.

He resumed his formal education at the University of South Florida and now holds a Bachelor of Science and a Master of Arts degree from there.

Mr. Jernigan and his wife, the former Miss Catherine Rushin of Elba, plan to make Jacksonville their home.

By Tom Casaday, County Extension Chairman

all around COFFEE COUNTY

STOCKER CATTLE

Manuel Patrick of Enterprise called me the other night. He is doing some figuring on grazing stocker cattle on winter grazing for 160 days and selling them. Several Coffey County cattle producers have bought light weight cattle in October, grazed them until April 1 and put about 250 pounds of gain on them.

This program isn't for everyone. However, if you have the land, can get a good stand of grazing reasonably early, and have the necessary fencing this could be profitable for you.

In other words, if you can be just about as profitable as a cow-calf operation. Get in touch with us if you would like some research information on this.

We haven't even begun to realize our potential in this phase of beef cattle production.

One important thing is that where leasport is controlled, digging can be delayed 10-14 days. It won't do any good to do a good job of leasport control if you plow them up too soon.

HARVESTING PEANUTS

I was talking with a fellow this morning in the Mt. Pleasant Community. He said that Frank Britt had some Spanish peanuts that he was getting ready to plow up. This fellow voiced the opinion that he hated to see anybody start plowing up peanuts because when one person in the community started, everybody wanted to. He pointed out, though, that these were Spanish peanuts that Britt had planted early. Of course, we know that they are usually harvested a few weeks ahead of the other varieties.

COFFEE NEWS & CHAT

BY SARA E. HUTCHINSON

CHICKEN COOK-OUT

Your food store will probably be filled to the rafters with broiler-fryer chicken this month. Chicken is a great summer food so follow these suggestions for cooking.

Leave the bird whole for roasting cooking or barbecuing. For chicken cook-out or back-yard barbecue, space the charcoal

so that coals do not touch. Be sure the broiler racks are six to eight inches from the coals so as to get even heat without too much intensity. If the poultry gets too hot, raise the rack away from the heat.

When it's done, brush the chicken with melted butter or margarine or your favorite barbecue sauce. When testing for doneness, make sure the juice isn't pink, since poultry should be cooked all the way through for safe eating.

CHILD DEVELOPMENT

No one can tell the exact age a child will be able to do a particular thing like walk, talk or be toilet trained. But people who have studied many children can tell us what usually happens at various ages.

We know there is a difference between a child's chronological age and his mental age. Your baby turned one year old but he can't sit alone before he could crawl. This is called developing skills. But all this takes time and the chance to do it again and again.

All that a child learns to do — from talking to getting along with others — happens in stages. He needs time and a helpful surrounding. He is encouraged by your love and understanding. Then, too, he needs the chance to do what he can. Knowing how to grow and learn is one of the big jobs of being a parent.

THE 11th edition of the Encyclopedia Britannica published in 1911 has been presented to the Troy State University Library by a gift by Albert C. Jones of Laurel, Miss. Kenneth Croslin, Library director, announced today.

Mr. Jones was formerly educational director of the First Baptist Church in Troy.

The 11th edition is scholarly and carefully edited and, though 60 years old, is still a valuable reference work. It is particularly useful for subjects where recent information is not essential. Mr. Croslin said. It is one of the two most famous editions of Encyclopedia Britannica, the other being the 9th edition.

The 11th edition set is in the "Handy Volume" format on India paper. It will be added to the library's Treasure Collection. The Library, Mr. Croslin said, would also like to have a Cambridge edition of the 11th edition, which is printed on paper designed for regular library use. Gifts of any of the even more famous 9th edition would be especially welcome, he added.

It is too early yet to even begin to think about plowing up peanuts, but is an excellent time to get equipment ready so that when conditions get just right you won't have your tractor or peanut picker in the shop wasting valuable time.

CATFISH TOUR

District Extension Chairman J. C. Bullington told us a few days ago that he is making a catfish tour with Richard Arrington of the Southern Railway System to us to arrange a catfish production tour into Georgia later on in the fall.

Mr. Bullington, whose headquarters are in Montgomery, operates the "grub" business which takes various farm groups on tours. The county agents in the 17 southeast Alabama counties will be visiting a raceway unit in Fayetteville, Ga. This is located near Atlanta. A raceway is simply a narrow ditch which is filled with enough water and is stocked with about 2,000 fish per 100-foot unit.

PARM DRIERS

We have a lot of interest in farm driers for both peanuts and grain sorghum. Our engineers at Auburn tell us that folks with 50 acres or more of peanuts can profitably install an on-the-farm drying system. They also tell us that they need not necessarily be expensive.

Dolan Averett, who lives in the Galvany Community on the Clintonville Road, has built some drying units for his peanuts and has cut down on the cost. Averett said that I am sure that Averett will be happy to show his partially homemade drying unit to anyone who is interested.

BEGINNING SOON

HOME IMPROVEMENT

Painting the kitchen or bathroom of your home requires a little extra work. Be sure to clean the wall surface of dirt and grease first. Kitchen walls and ceilings are usually covered with a film of grease from cooking, and bathroom walls and ceilings may have steam on dirt.

The grease or dirt must be removed before painting because the new paint will not stick to it. So, to remove this grease or dirt wash the surface with a strong household cleaner, turpentine or mineral spirits.

The finish on kitchen and bathroom walls and ceilings is usually a gloss or semi gloss which must be cut so that the new paint can get a firm hold. For the best results, rub the surface with fine sandpaper or steel wool. After doing this, wipe the surface to remove the dust.

FASHION

Have you ever tried to fit into one of your grandmother's or mother's old dresses and found that it didn't look as good on you as it does in the picture of your ancestor?

The problem isn't that they were better made than you. It's that posture, stance and even gestures change with fashion. Some of the changes in dress have been made higher or lower or the waistline being nipped in or allowed to relax. But the souch of the 70's would never fit into the square shoulders of the 40's. So posture and height were major factors in fashions of the 40's.

THEY HAVEN'T INCREASED IN VALUE AT ALL. BUT DON'T WAIT UNTIL FIRE REDUCES YOUR INSURANCE TO ASHES TO FIND OUT. SEE ME AND I'LL EXPLAIN HOW A STATE FARM HOMEOWNERS POLICY CAN KEEP YOUR HOME INSURED FOR ALL ITS WORTH.

Elba Native Receives Degree In August

Mrs. Margaret Bryan Powell, daughter of Mr. and Mrs. Wilton Bryan, Route 2, Elba, is scheduled to receive her master's degree in education from Troy State University during the August 15th graduation exercises.

Mrs. Powell, a 1965 graduate of Elba High School, received her B.S. Degree from Troy State in mathematics. Presently employed by the Walton County Board of Education, she teaches senior high math at Paxton where she also serves as junior class sponsor.

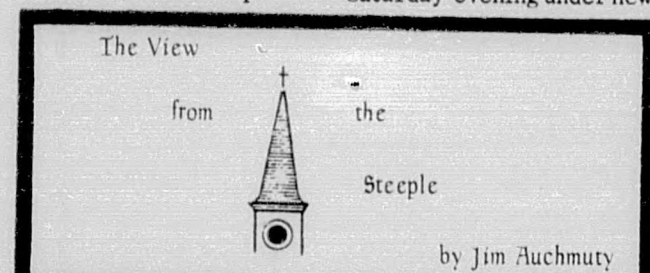

Her husband, Paul, is employed with the Covington County Board of Education where he teaches history and physical education at Florala High School.

CHRISTINA COOPER, daughter of Dr. and Mrs. Bancroft Cooper of Elba, tries Senator Jim Allen's chair for size while John Thompson of Union Springs and the Senator look on in approval.

COFFEE HOUSE - CHRISTIAN FELLOWSHIP CENTER

The Coffee House, a ter, for youth, will re-open Saturday evening under new

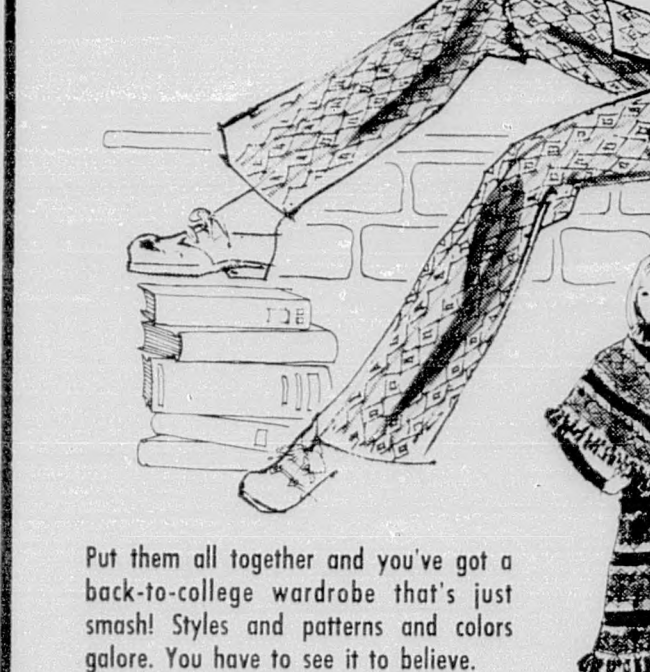

Since the early days of the church, the standard Christian symbol, The Greek word for fish, ICHTHUS, used as an acronym, spells out "Jesus Christ, God's Son, the Savior." One Sunday morning as I drove to Ft. Gaines to preach, boat after boat passed by. The thought struck me that the fish is still a fitting symbol for many church members. However, it does not represent "Jesus Christ, God's Son, the Savior." Rather the fish is symbolic of the sad fact that "Sunday has become Sunday."

"... forsaking not the assembling of ourselves together as the custom of some is..." (Hebrews 10:25).

rules. The Coffee House is governed by a council composed of representatives from the Elba United Methodist Church and the First Baptist Church. At a recent meeting new rules and plans were outlined which it is felt will insure that the center will be one where Christian fellowship and recreation can be enjoyed. The Coffee House Council feels that strict discipline must be observed to insure these rights. Beginning Saturday, each member who participates in the Coffee House program must have a membership card. You cannot be admitted without this card. Any youth in grades seven through twelve from the churches of Elba may obtain a membership card by applying to either the Rev. Ed Sells at the Elba United Methodist or Mr. Robert Holliman at the First Baptist Church. The cost of the card is one dollar. The hours of the Coffee House will be each Saturday from 7:00 - 10:00 p.m. A member may enter the Coffee House during these hours but must participate until closing time unless a parent picks up his young person. If a member leaves the Coffee House before closing time, he forfeits his membership. During the three hour period games and recreation will be available. Movies will be shown from time to time at a nominal price, and soft drinks and candy may be purchased. Each member is expected to conduct himself in a Christian manner. Any youth who desires this kind of fellowship is welcome to become a member. Parents are urged to cooperate in this endeavor and to offer your service as chaperones. The Council feels that this center will make a real contribution to the life of youth who desire this kind of atmosphere.

Loss Of Field Bees Weaken Bee Colony

Field bees—older bees that fly to the flowering plants to gather nectar and pollen for the colony—are the most frequent victims of pesticide poisoning, says Carl Dennis, Extension apiculturist. Loss of field bees can weaken a colony and cause a serious loss to the beekeeper.

Success in honey production depends on colonies that are strong in numbers of bees, the specialist adds. If the field force is destroyed, the whole colony is weakened. The queen may reduce egg-laying or be killed by the workers, and the colony may not build up in time to make a honey crop, he warns.

Dennis says financial losses from pesticide kills vary with the date of the kill, the date and duration of main honey flows, pesticides involved, strength of bee colonies at the time and when bees are needed for pollination.

GENERAL TELEPHONE COMPANY OF ALABAMA

Enterprise, Alabama

August 11, 1971

TO OUR TELEPHONE SUBSCRIBERS

"TWO MILLION DOLLARS!" Sure, it's a lot of money but it brought a lot of progress to Enterprise, Elba, New Brockton, Clayhatchee and Level Plains.

Costs keep going up and up. Your budget shows that and so does ours. This year a record two million dollar plus is being invested in construction, central office equipment and buildings. Last year we announced a Service Improvement schedule for this entire area. This program is designed to ELIMINATE all multi-party service as well as provide upgrading of service to all our customers. When completed only one or two party service will be offered within the city and improvement Program is on schedule. The New Brockton exchange was completed in 1970 and our Enterprise exchange is approximately 75% complete and progressing satisfactorily.

A quarter of a million dollars has been spent on the upkeep on service already being provided within this district. Thus far this year, we have worked more than 4000 customer service orders for new or improved service. We also are continuing with our building expansion program for a new plant and business office building in Enterprise within the next few weeks.

Our plans for 1972 are just as impressive. We will add 84 channels of carrier for long distance service within this district that will more than double such facilities. THIS SERVICE IMPROVEMENT SCHEDULE WILL COMPLETE IN ELBA IN 1972 ELIMINATING ALL MULTI-PARTY SERVICE.

Additional central office equipment and cable will be added in Enterprise, New Brockton and Elba. With these additions, we will be investing more than ONE MILLION DOLLARS during 1972.

On behalf of our 54 employees working in the Enterprise District, I want to take this opportunity to thank you for the kindness and courtesy shown us during this growth period. We want you to know that we will continue to direct all of our efforts towards providing you with the best possible telephone service.

Mularz Are Parents Of Baby Boy

Mr. and Mrs. Frank Anthony Mularz, Jr., announce the birth of a son born August 6, 1971. Frank Anthony Mularz, III, weighed in Coffee General Hospital at 7 lbs and 15 oz.

Proud grandparents are Mr. and Mrs. Frank Anthony Mularz and Mr. and Mrs. James A. Heard.

YOUR Health

Your Health is presented to you by a physician as an information service of The Medical Association of the State of Alabama.

Obesity vs. Cancer

Being overweight is a bigger — without a pun — and more important health problem than cancer. In the United States, various studies have shown. Cancer itself is an epidemic disease. It attacks much of the population, and being overweight, usually is regarded as important but far from awesome in its consequences.

To place the two conditions in perspective, if a cure or prevention for cancer is discovered, life expectancy in the United States would be increased an estimated two or three years whereas if obesity was eliminated, life expectancy would increase seven or eight years.

With that statistical projection, a health warning label on fattening foods might be more justified than the "hazardous to health" message on packs of cigarettes. Or, perhaps it should be made illegal for mothers to overload their children which is both the "why" and the "when" most overweight starts. A rilly-polly baby should be a badge of shame for the parents.

If parents followed upon the same degree of concern they might show about Johnny smoking in back of the garage when it comes to maintaining a slim, trim appearance in both children and adults, life expectancy would take a big step ahead.

One of many indications of what has been happening (and is to the average American) is available by comparing a just-completed study with one conducted in the first third of this century. The present study shows that the waist measurement of young men 18 to 24 years old is about 32 inches — an increase of about three inches over the earlier studies. While waist measurements may not be the best barometer of obesity, they are in indication and the warning should be clear.

CARD OF THANKS

The members and relatives of the Lehman LeCompte family would like to express our appreciation and gratitude to the hospital staff of Elba General Hospital for their service rendered during his illness. We would also like to thank all the friends and neighbors for their kindness, preparing meals, flowers, etc.

The Lehman LeCompte Family.
8/12/71pd.

CARD OF THANKS

I want to express my appreciation to all my friends and relatives who were so thoughtful during my husband's long illness and death. I want to especially thank the nurses, doctors and other members of the staff of Elba General Hospital. I appreciated the many beautiful flowers, food and many other kinds deeds and expressions of sympathy. May God bless each of you.

Mrs. Lena Fuller

LEGAL NOTICES

INVITATION TO BID
Sealed proposals in duplicate for the construction of Elba Middle School and Elba Area Vocational School.

Two separate projects for the Elba City Board of Education, Elba, Alabama, will be received at the office of the Superintendent at Elba until 2:30 p.m. CDT, Tuesday, September 14, 1971, and then publicly opened and read aloud.

Each bidder may bid on each project individually or he may bid on the two projects combined. He shall however, have to treat the projects separately for bookkeeping purposes should he be awarded the contracts for both projects.

Drawings and Specifications will be open to public inspection at the Office of the Superintendent of Education, Office of the Architect, P. W. Dodge Plan Rooms in Montgomery, Birmingham, Mobile and the Birmingham Builders Exchange.

Only bids of qualified General Contractors as licensed by the State Licensing Board for General Contractors will be considered. Other sets may be obtained from the Architect upon deposit of \$50 per set (\$25 each) which will be refunded in full on the first two sets issued to each general contractor bidder submitting a bona fide bid, upon return of documents in good condition within ten days of bid date. Other sets may be obtained with the same deposit, which will be refunded, as above, less cost of printing and handling.

No partial set of plans will be issued. Specifications will not be issued in part sets.

Certified check or Bid Bond for not less than 5% of the base bid on each project, but not more than \$10,000, must be attached to each proposal. Performance and Payment Bonds will be required of the successful bidder (s).

Right is reserved by the Owner to reject any or all proposals and waive technicalities. No bid may be withdrawn until thirty days after bid date.

Mortgage Foreclosure Notice

Default having been made in the payment of the indebtedness secured by that certain mortgage executed by Richard Leland Brinkmeier and wife, Betty Jo Brinkmeier, to Dothan Federal Savings and Loan Association, on April 8, 1969, recorded in Mortgage Book 45-A, Pages 344-347 in the office of the Judge of Probate, Elba, Coffee County, Alabama, and such default continuing, notice is hereby given that said mortgage will sell at public outcry for cash to the highest bidder in front of the Courthouse door, main entrance, in the City of Elba, Alabama, during the legal hours of sale on Wednesday, August 25, 1971, the following described real estate, situated in the City of Elba, Coffee County, Alabama, and more particularly described as follows:

Lot No. 2, Block "G" of the Brookdale Subdivision, an addition to the City of Elba, Alabama, as shown by plat on record in the office of the Judge of Probate, Elba, Coffee County, Alabama, in Plat Book 1, Page 3, together with all improvements situated

thereon.

Said sale will be made for the purpose of paying the indebtedness secured by the above described mortgage, and the proceeds thereof will be applied as provided by the terms of said mortgage, including payment of the expense of foreclosure.

Nuptial Vows Spoken In Zion Chapel Baptist

Miss Dorothy Lavonia Jackson and Robert Wayne Parker, both of Elba, were united in marriage on July 24, 1971, at seven-thirty in the evening in the Zion Chapel Baptist Church. Officiating at the double ring ceremony was Reverend William R. Goodson.

The bride is the granddaughter of Mr. and Mrs. T. H. Carr and the groom is the son of Mrs. Henry Parker and the late Mr. Parker, all of Elba.

Nuptial music was provided by James Timothy Brown, pianist, and Miss Babs Bruce, soloist, both of Elba. Miss Bruce sang for the occasion, "Theme From Romeo and Juliet," "Love Story," "The Lord's Prayer," and "Whither Thou Goest." The traditional wedding marches were used.

The bride, given in marriage by her grandfather, wore a gown of floor length design of white satin featuring an Empire bodice with a scalloped neckline. The front of the gown and long fitted sleeves, deeply pointed at the wrist, were embroidered with Chantilly lace and seed pearls. The long rounded train was reembodyered with appliques of Chantilly

lace and seed pearls. Her Cathedral mantilla was of tulle edged with Chantilly lace and was attached to a Doir Beau. She wore a white lace choker centered with a cameo, a gift from the groom.

The bride carried a full, floor-length bouquet of white sweetheart roses and carnations centering a white orchid. White floor-length streamers of ribbon in the color of the bride's bouquet were carried by the bridesmaids.

Attending the sister as maid of honor was Miss Sue Jackson of Elba. She was attired in a formal pants outfit of hot pink and white crepe overlaid with chiffon. The Empire bodice and high-fitted neckline of chiffon were trimmed with silver sequins. The ensemble was accented by Bishop sleeves of matching chiffon.

She carried an arrangement of pink and white sweetheart roses centering white carnations with long white ribbon streamers. Attending the bride as bridesmaids were Mrs. Merlene Owens of Elba, Mrs. Jace Carr of Troy, both aunts of the bride, and Mrs. Sam Nichols, also of Troy.

Bridesmaids were Miss Edna Carr, Miss Debbie Jones of Elba, Miss Karen Carr, Miss Jumell Barker, of Troy, Miss Benita Hornsby, New Brockton and Miss Ellen Pierce of Opp.

Serving as junior bridesmaids were Miss Lynn Owens of Elba and Miss Karla Carr of Troy.

The attendants wore identical formal pants outfits of hot pink crepe with full length sleeves gathered at the wrists. The diamond cut bodice and round neckline were trimmed in silver sequins braid.

The junior bridesmaids wore floor-length dresses of hot pink crepe, featuring an empire bodice and round neckline with white and silver lace ruffles. The short puffed sleeves were accented with the same trim.

Each attendant wore silver shoes and their headpieces were circular bands of hot pink crepe with overlays of hot pink net. They carried a long stemmed red rose accented with flowing streamers of pink ribbon.

Miss Angie Bullard of Troy served as flower girl. She wore a floor length princess gown of white crepe trimmed with rows of white lace inserted with pink ribbon. She carried a basket of pink rose petals.

Serving the groom as best man was Mr. Jimmy Jones of Elba. Groomsman and ushers were Mr. Keith Baker, Mr. Joel Martin, Mr. Bill Owens, Mr. Jackey Tindol,

Mr. Larry Jacobs, Mr. George Farris, Mr. Joe Roberts, all of Elba, Mr. Jace Carr, Mr. Wyndell Eiland both of Troy, Mr. Dennis Elaid, of Opp and Mr. Larry Adkinson of New Brockton.

Mr. Bill Owens and Mr. Larry Adkinson carried silver torches to light the candles which consisted of one large round candle tree containing thirty six candles accented by two smaller round candle trees containing seventeen candles each.

Master Ken Owens, of Elba, cousin of the bride, served as ring bearer. Mrs. Carr chose for her granddaughter's wedding a formal gown of mint green knit with white accessories. She was escorted by her son, Mr. Jace Carr, for her son's wedding.

The bride wore a blue formal gown with white accessories. She was escorted by her nephew, Mr. Wyndell Eiland, of Troy, great grandmother of the bride attended and was escorted by her grandson, Mr. Jace Carr. She was presented a corsage of white carnations.

Guests were registered by Miss Laura Lou Barker of Troy. The church was beautifully decorated with white candles burning in each window. Small pom trees accented the church entrance. A large pom tree was placed in the background behind the altar. Flanking each side of the altar were round candle trees and large arrangements of greenery with gladioli and red roses.

Directly in front of the altar was a double white fountain with colored flowing water. In the center of the fountain were floating white lily pads and daisies. Accented the outside were small pots of green fern with pink ribbon.

The marriage ceremony was performed under a large white arch which held arrangements of green fern and white stephanotis with 3 wedding bells. Altar decorations also consisted of the prayer bench, large round candle trees and two baskets of red roses and white glads.

Directly following the wedding ceremony a reception was held at the Elba Country Club. The bride chose for her traveling outfit a three piece pants ensemble of red, white and navy. She wore

the orchid from her bridal bouquet.

The couple are residing in Elba after a wedding trip to Florida.

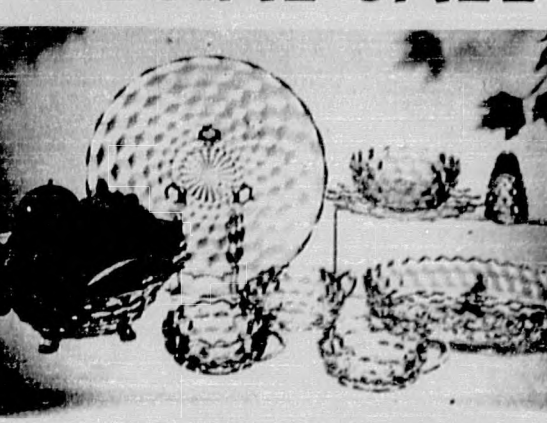

On July 23, Miss Jackson and Mr. Parker were entertained in Troy following the wedding rehearsal.

Attending the honored couple were Mr. and Mrs. T. H. Carr, Mrs. Louise Goodson and members of the wedding party and their guests.

Jimmy Holley To Head Local Pre-School

Elmer Taylor, Superintendent of the Elba City School System announced Monday, the appointment of Jimmy W. Holley to succeed as director of the Elba Pre-School program.

The City System received a federal grant under Title III and is funded by the U.S. Office of Health, Education and Welfare. The program is composed of four basic inter-related components to include pre-school for five year old children, a guidance and tutorial program for the Elba Elementary School and a home-school coordination program.

Mr. Holley said that several parents had already registered their children and that another registration date had been set for Friday, August 20th, from 9:00 a.m. until 3:00 p.m. on a first-come first-serve basis. Personnel will be there during lunch hour.

The program, says Holley, is designed for 100 students and children whose birthday is on or before the 2nd of October, 1971 will be eligible. Any child living in Elba or outside the city limits will be able to attend. Take child's birth certificate when registering. For further information call 897-6731.

Federal Lawsuit Filed In Commission Issue

A law suit was filed in federal court last Thursday asking Judge Johnson to force the County Commissioners to abandon the four districts and allow members to live anywhere in the county. Presently state law sets the districts and requires a commissioner

Kleinert Reviews Employee

Recently Kleinert's reviewed the mix of addresses for their 475 active employees. The objective of bringing Kleinert's to Elba was to provide employment and to increase the buying power in the Elba trading area. The statistics which came from this analysis will reveal that this job is effectively being done. Of the total 475 employees, 353 or 74 percent live within Coffee County. The breakdown by post office address is:

Elba - 249
New Brockton - 26
Jack - 20
Enterprise - 58
Our sister town of Opp has 29, Samson 25, and other towns in the area anywhere from one to 10.

This analysis shows that the current recruiting effort is centered in the Elba trading area.

The company announced that for this coming school year they will again carry out their plastic container division. The State authorities are presently selecting the worthy students who will be assigned to the work - learn program at Kleinert's.

Quarterback Club To Meet

The Elba Quarterback Club will meet Monday night at the Elba Country Club. The meeting will be held at 7:30 p.m. for special training.

All members are urged to attend this meeting, says Quarterback Tommy Wise. New officers will be selected at this time.

George Andrews To Make Two Local Speeches

U. S. Rep. George Andrews will be the featured speaker at the August 24th observance of the Human Resources Research Organization's 20th Anniversary banquet held at the Fort Tucker Officer's Club and at the August 25th luncheon meeting of the Enterprise Lion's Club at Bayley's Restaurant in Enterprise.

Andrews is serving his 28th year as Congressman for the Third Congressional District of Alabama in the U. S. House of Representatives. While serving as a lieutenant (junior grade) with the United States Naval Reserve at Pearl Harbor, Andrews was elected to the Seventy-eighth Congress in 1944, filling the vacancy caused by the death of Henry B. Steagall and has since served 15 consecutive terms in the House. The South Alabama Democrat is the second ranking member of the powerful 55-member House Appropriations Committee. He chairs one subcommittee and serves on two others, making him one of only eight committee members who hold the distinction.

Andrews serves on the Appropriations subcommittee for Defense and Public Works and is chairman of the Legislative Appropriations Subcommittee.

4,000 Attend Co-op Meeting

An estimated 4,000 persons—including a record registration of 1,277 members—attended the 1971 membership meeting of Covington Electric Cooperative held at the Andalusia Municipal Stadium Thursday evening, Aug. 12 at which time Co-op members:

Elected two members to the Board of Trustees; received reports on operations during the past year; approved a by-laws amendment relative to Covington Electric's participation in a new non-profit bank to meet part of its capital fund needs; heard a humorous address by John A. Garrett, Farmers Home Administration Director for Alabama, and received some 30 attendance prizes.

It was also revealed that Co-op members had overwhelmingly authorized Covington Electric to borrow a portion of its necessary loan fund from the Navy and Air Force Civilian Cooperation Finance Corporation (CFC). Voting on this matter began by mail on July 8, and concluded at the annual meeting.

J. L. Bryant, Dozier, Rt. 1, and J. L. Mallory, Kinross, Rt. 1, were re-elected to three-year terms on the Board of Trustees; representing Districts III and IV, respectively.

Garrett, spicing his remarks with numerous anecdotes and humorous illustrations, lauded the rapid electrification program for its contributions to the growth and progress of Alabama, and described activities of the Farmers Home Administration.

Mr. Thelma Clark

Jamelle Folsom Wedding

Mrs. Thelma Clark of Elba attended the Jamelle Folsom - Donald Martin wedding which was an event of August 7th in Culman. The bride, Mrs. Clark's niece, is the daughter of former Governor and Mrs. James E. Folsom.

Returning home with Mrs. Clark for a few days visit was the former Governor.

According to Herbert L. Oaks, president, "The sales and earnings of our plastic container division which was acquired late in 1970, are included in the results for 1971 but not for 1970. The improved results reported for the quarter are due to the addition of our plastic container division. Although sales have shown improvement in recent months at our cargo trailer division, earnings are still below last year's level."

Elba Schools To Begin
Class On August 26

The Elba City Schools begin the 1971-72 school year with registration for all students. Kindergarten through grade 12, at eight o'clock on Thursday morning, August 26, 1971. Children who will be five (5) years old on or before October 1, 1971, will register at Elba Pre-School (formerly Mulberry Heights School), grades 1-4 at Elba Elementary School, grades 5 and 6 at Elba Middle School, and grades 7-12 at Elba High School. Buses will run, and bus routes will be the same as last year.

The first full day of school will be Monday, August 30, 1971 from 8 a.m. to 3 p.m.

Dorsey Corp. Reports Increase Sales & Profit

The Dorsey Corporation (NYSE) Chattanooga, Tenn., a leading manufacturer of glass and plastic containers and cargo trailers, has reported increased sales and earnings for the second quarter and six month period ended June 30, 1971.

For the second quarter ended June 30, 1971, sales reached \$25,521,000, compared to the \$22,000,000 reported a year ago. Net earnings increased to \$1,369,000 or \$3.33 per share on a fully diluted basis, compared to \$1,000,000 or \$2.47 per share for the same quarter last year.

For the six month period ended June 30, 1971, sales rose to \$45,223,000, compared to the \$40,911,000 reported for the six months last year. Net earnings increased to \$2,212,000 equal to \$7.76 per share on a fully diluted basis, versus \$1,693,000 or \$6.16 per share reported a year ago.

According to Herbert L. Oaks, president, "The sales and earnings of our plastic container division which was acquired late in 1970, are included in the results for 1971 but not for 1970. The improved results reported for the quarter are due to the addition of our plastic container division. Parents Know the Drug Threat

The Child You Save May Be Your Own

A MESSAGE FROM
JACK BRUNSON, MAYOR
City of Elba, Alabama

Most of us like to think that the drug threat is a problem in some far off city, but the fact is that we have a drug threat in our City and County today. For this reason I obtained a series of articles for publication in an effort to communicate with as many parents as possible. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

Today's Subject: More Mind-Affecting Drugs Now in Use

To classify any one group of drugs as "mind-affecting" would be a truth, but only half true, because this would lead one to believe that some drugs in use do NOT affect the mind. The hallucinogenics, (those which cause "trips" of the mind), are generally referred to as mind-affecting, but in reality all drugs have their effect on the mind whether direct or indirectly. Some of the other drugs we have not mentioned thus far are Mescaline, Peyote, Psilocybin, DMT, STP and D.

Mescaline is hallucinogenic in nature, a chemical found in the buttons of certain cactus plants - peyote or mescal - and these are also available illegally in powder and liquid form. The effects, for the most part milder than from LSD, often last 10 to 12 hours. Being bitter to the taste it is often mixed with a drink to make it go down easier. American Indians have used this drug in religious rights for hundreds of years, so its use is not what could be termed new.

Peyote itself, coming from cactus, is a milder form of Mescaline. Sometimes it is referred to as "the button", "cactus", or just the letter "P". To this day it is still used in sacraments by the Native American Indian Church.

Psilocybin is from the Mexican mushroom and usually comes in crystal, powder or liquid form. Influence of the mind lasts from 2 to 6 hours generally and effects are similar to those of Mescaline.

DMT, (dimethyltryptamine), causes effects similar to LSD, when taken in large doses. Reaction comes quickly and the effects last an hour or two. It is made synthetically and is a natural component of seeds from plants growing in the West Indies and South America. For hundreds of years natives have used this drug by sniffing a powder from the seeds.

STP, (also known as DOM), is relatively new on the drug scene. It is a synthetic chemical related to Mescaline and the Amphetamines. Reportedly it is very mind-distorting, but not nearly so powerful as LSD.

Morning Glory Seeds of some varieties have an active principle closely related to LSD, but much less potent. The seeds are most usually chewed or made into a tea.

Then there is the "thing" called "88", like banana peel, "68" or, as it is sometimes called "sex juice", may be a hoax so say the specialists of the American Pharmaceutical Association. Users have reported that it produces wild, short trips as compared to LSD or STP. There are conflicting reports on the chemical make-up and over all effects. Our Food and Drug Administration says that "68" is simply oil of peppermint.

So, in summary today, you may ask yourself why it is important to know all of these minute details about all of the drugs we have discussed. Much of the information you may never have an occasion to use - BUT, if you do have occasion it is much better to know facts than fiction, hearsay and the like.

The major point of this entire series is to better understand the drug misuse problem and to do this we must know basic knowledge and basic facts. Only through truth about the drug problem can we hope to combat it. Only through open-mindedness can we save our children from the horrors of drug misuse. We are the adults - the solution to the problem is up to US - this is OUR responsibility!

Be with me next week, won't you?

YOUTH APPRECIATION SUCCESSFUL
